
Shipping API connectivity- Instructions:

To process your FBM orders easily and fast, we would like to connect your store to our system. Every new order will be imported to the system automatically, and once the order will be shipped, tracking number will be sent to your store.

To connect your store to our system please provide the following details:

Ebay:

- User name
- Password

***After we confirm that the store is connected, feel free to change the password.

Amazon:

- Go to <http://developer.amazonservices.com>, click **Sign up for MWS**, and log in with your Amazon Seller credentials.
- Select the "I want to give a developer access..." option, and enter:
 - **Developer Name:** ShipStation
 - **Developer Account No:** 4289-4417-4486
- Follow the prompts, then copy the **Seller ID** and **MWS Auth Token** and provide to us.

Shopify:

- Shopify Domain
- Password

*** After we confirm that the store is connected, feel free to change the password.

Instructions:

1. Please provide us list of SKUs that you would like to send from us.
2. Please provide us clear and detailed instructions:
 - domestic/ international orders
 - Shipping service: USPS Priority, USPS First Class Mail, UPS Ground ect.
 - Delivery time
 - Insurance
 - Packaging
